

資源開発研究部門

Medicinal Resources

藥物代謝工学分野

Metabolic Engineering

教授	服部 征雄	Masao Hattori
准教授	馬 超美	Chao-Mei Ma
助教(前)	鄭 美和	Mi-Hwa Chung
助教	湯 俊	Jun Tang

◆ 原著

- 1) Phuong D.T., Ma C., Hattori M., and Jin J.S.: Inhibitory effects of antrodins A-E from *Antrodia cinnamomea* and their metabolites on hepatitis C virus protease. *Phytother. Res.*, 23: 582-584, 2009.
- 2) Sato N.*, Ma C., Komatsu K., and Hattori M.: Triterpene-farnesyl hydroquinone conjugates from *Ganoderma sinense*. *J. Nat. Prod.*, 72: 958-961, 2009.
- 3) Wei Y., Ma C., and Hattori M.: Synthesis of dammarane-type triterpene derivatives and their ability to inhibit HIV and HCV proteases. *Bioorg. Med. Chem.*, 17: 3003-3010, 2009.
- 4) Ma C., Wei Y., Wang Z., and Hattori M.: Triterpenes from *Cynomorium songaricum*-analysis of HCV protease inhibitory activity, quantification, and content change under the influence of heating. *J. Nat. Med.*, 63: 9-14, 2009.
- 5) Yu J., Ma C., Long C., Wang X., Shang M., Cai S., Hattori M., and Namba T.: A new aristololactam from *Asarum maximum*. *J. Chin. Pharm. Sci.*, 18: 183-185, 2009.
- 6) El-Mekkawy S., Abdel-Sattar E., Hattori M., Kawahata T., and Otake T.: Screening of medicinal plants in Egypt for anti-human immunodeficiency virus type-1 (HIV-1) activity. *JASMR*, 4: 1-8, 2009.
- 7) Wei Y., Ma C., and Hattori M.: Synthesis and evaluation of A-seco type triterpenoids for anti-HIV-1 protease activity. *Eur. J. Med. Chem.*, 44: 4112-4120, 2009.
- 8) Jin J.S., and Hattori M.: Further studies on a human intestinal bacterium *Ruminococcus* sp. END-1 for transformation of plant lignans to mammalian lignans. *J. Agric. Food Chem.*, 57: 7537-7542, 2009.
- 9) Ma L., Yang X.W., Cai B.C., and Hattori M.: Intestinal permeability of antitumor alkaloids from the processed seeds of *Strychnos nux-vomica* in a caco-2 cell model. *Planta Med.*, 75: 631-634, 2009.
- 10) Wei Y., Ma C., and Hattori M.: Anti-HIV protease triterpenoids from the acid hydrolysate of *Panax ginseng*. *Phytochem. Lett.*, 2: 63-66, 2009.
- 11) Zhang Q., Zuo F., Nakamura N., Ma C., and Hattori M.: Metabolism and pharmacokinetics in rats of ganoderiol F, a highly cytotoxic and antitumor triterpene from *Ganoderma lucidum*. *J. Nat. Med.*, 63: 304-310, 2009.
- 12) Sato N.*, Zhang Q., Ma C., and Hattori M.: Anti-human immunodeficiency virus-1 protease activity of new lanostane-type triterpenoids from *Ganoderma sinense*. *Chem. Pharm. Bull.*, 57: 1076-1080, 2009.
- 13) El Dine R.S., El Halawany A.M., Ma C., and Hattori M.: Inhibition of the dimerization and active site of HIV-1 protease by secondary metabolites from the Vietnamese mushroom *Ganoderma colossum*. *J. Nat. Prod.*, 72: 2019-2023, 2009.
- 14) Sasivimolphon P., Lipipun V., Likhitwitayawuid K., Takemoto M., Pramyothin P., Hattori M., and Shiraki K.: Inhibitory activity of oxyresveratrol on wild-type and drug-resistant varicella-zoster virus replication in vitro. *Antiviral Res.*, 84: 95-97, 2009.

◆ 学会報告

- 1) Hattori M.: Survey of anti-HIV/HCV agents among medicinal mushrooms. NRCT-JSPS Core University Program on Natural Medicine in Pharmaceutical Sciences, The 8th Joint Seminar, Innovative Research in Natural Products for Sustainable Development. 2009, 2, 3-4, Bangkok, Thailand. (Invited lecture)
- 2) Chung M.H.: Estrogenic effects of Tokishakuyakusan (Japanese traditional medicine) and differences between Tokishakuyakusan and 17 β -estradiol. NRCT-JSPS Core University Program on Natural Medicine in Pharmaceutical Sciences,

The 8th Joint Seminar, Innovative Research in Natural Products for Sustainable Development, 2009, 2, 3-4, Bangkok, Thailand.

- 3) Sato N.: Isolation of lanostane type triterpenes from *Ganoderma sinense* and their anti-protease activity from HIV. NRCT-JSPS Core University Program on Natural Medicine in Pharmaceutical Sciences, The 8th Joint Seminar, Innovative Research in Natural Products for Sustainable Development. 2009, 2, 3-4, Bangkok, Thailand.
- 4) Hattori M., El Dine R.S., Ma C., and Sato N.: Inhibitory substances from medicinal mushrooms: *Ganoderma* species against HIV-1 protease. The 50th Annual Meeting of the American Society of Pharmacognosy, 2009, 6, 27- 7, 1, Honolulu, Hawaii.
- 5) Kitalong C., El-Halawany A.M., Ma C., and Hattori M.: A new benzophenone rhamnoside from *Phaleria nisidai* with estrogenic activity. The 50th Annual Meeting of the American Society of Pharmacognosy, 2009, 6, 27-7, 1, Honolulu, Hawaii.
- 6) Furuhashi K.*, Chung M., and Hattori M.: Effect of Tokishakuyakusan on ovary and hypothalamus Kiss-1 mRNA expression in hypophsectomized rats. The 50th Annual Meeting of the American Society of Pharmacognosy, 2009, 6, 27-7, 1, Honolulu, Hawaii.
- 7) Mizuno M.*, Chung M., Ma C., and Hattori M.: Metabolism and disposition of antrocin D in rats. The 50th Annual Meeting of the American Society of Pharmacognosy, 2009, 6, 27- 7, 1, Honolulu, Hawaii.
