Hearn's History of English Literature

"Lafcadio Hearn was a man for whom I always entertained a very great admiration."
—RUDYARD KIPLING.

"If nothing were known of Lafcadio Hearn but this volume, it would still be on record that a great teacher had found pupils who responded so nobly that instinct prompted them to erect to him the most fitting monument."
—STEPHEN GWYNN in *The Observer*.

"It is true pioneer work, and in it Hearn discloses that he loved fixed values, a secure and formal existence, a moral code on the grand style, finalities; no wonder the Japanese did not find him very surprising, but accepted him as one of them for good and all."
—*The Herald Tribune, New York*.

"The sweep of the discourse more than justifies the piety that has preserved it. Few lectures in English, in England, can afford to leave this tribute from Japan unstudied."
—*The Times, Literary Supplement*.

"I love to hear of his speaking and writing favourably about work of my own. May I without impertinence compliment you on the excellence of your book-production?"—GEORGE SAINTSBURY.

"As a critic Hearn is a man of independent judgment and independent judgment which are of special value in the estimates of writers of our time."

"American literature is treated separately at the end of English literature and in particular the full treatment of Hawthorne, is an admirable feature. Hearn's great merit as a teacher."
