NATIONAL CAPITAL.

INTERESTING INTERVIEW WITH SECRETARY THOMPSON.

His Views Concerning the President's Southern Policy.

What He Thinks of the Proposed Reorganization of the Old Whig Party.

Supreme Court Vacancy. Special Telegram to the Commercial.

WASHINGTON, April 22.—It is asserted that either General Bristow, of Kentucky, or Judge Drummond, of Illinois, will be appointed to the vacancy on the Supreme Court bench. Senator Davis is said to support the claims of the latter.

Indications of an Immediate Opening of Hostilities between the Whigs and the Democrats.

The latest intelligence at the State Department indicates that the censorship which the Russian Government proposes to exercise of dispatches with reference to Turkish relations, forebodes that immediate hostilities are to be begun upon the issuance of a declaration by the Czar from Bucharest. It is anticipated that the request of Turkey to be given more time will not be favorably received; but that an immediate movement of troops across the Pruth will be made.

Secretary Thompson's Southern Affairs.

The following is the substance of an interview with Secretary Thompson, which will appear tomorrow in the Daily Nation, of this city. In answer to a question as to the reorganization of the parties, Mr. Thompson said: "The war issues and race distinctions in the South combined to produce a very unfortunate state of affairs. It would, I think, certainly be desirable if the divisions of the past could be forgotten and the voters of the South reorganized into new classes. They would no longer find other differences of opinion than those relating to the best method of carrying the material interests of the South, and giving facilities for those, each party seeking an alliance with the colored voter, and each regarding itself as the protector of his rights. The country is now in a condition favorable to the adoption of the principles which were the platform of

THE OLD WHIG PARTY,

Which party always favored a tariff for revenue, and discriminating duties protective of American labor, and a system of public improvements, and a sound National currency. The principles of the Federal Government shall control such public improvements has been finally established. The people of the South are now in an impoverished condition. The people of the North are rich, and what is needed is such a system of public improvements as will benefit that section of the country; such measures as will impress upon the Southern people that

WE ARE THEIR FRIENDS AND BROTHERS; that we intend to live with them, and not oppressors of the same family, and to advance their interests and prosperity by means of the power which is in our hands. I think we can demonstrate our professions of friendship in no better way than this."

In reply to the question, Should a new Whig party be organized, do you think the Democrats of the Lamar, Ben. Hill, Hampton and Waterson stripe can consistently refuse to take sides with the new party? The Secretary said: "I should dislike to express an opinion to individuals, but in the event of the reorganization of the Whig party, it would seem to me that such men as Hill, and those you mention, would probably cut loose from old organizations and conspire with a party organized on old Whig principles.

Editor.—What do you think would be the action of the old line Whigs in the South, if a new Whig party was organized?

AN OLD PARTY WITH A NEW NAME.

The Secretary.—The name of the party is wholly immaterial, if the party were organized, or the Republican party so reorganized as to recognize Whig measures as distinct features of it, old Whig members in the South would fall into the ranks. Owing to the prejudices existing in the South it might be found necessary to have a change of name.

The Whigs of the South are not Democrats. They never were and never will be, and they will go into a new organization if it carries in its old Whig principles, or even into the old Whig party, if governed by those principles. They regard the old Whig party as embracing the same principles and patriotic desires. I have always said that when the country became diseased it could only be cured by Whig remedies, and whenever we have suffered from mismanagement or mismanagement we have applied to Whig remedies for relief.

THE NEW PARTY PLATFORM.

The editor called attention to the following platform of the new party, published a day or two ago in the Nation, and indorsed by the New York Graphic, the Louisville Courier-Journal, and the New York Herald:

"First.—A National currency founded on a bimetallic standard, and sufficient for the wants of the people.

"Second.—A system of internal improvements such as private capital is powerless to construct, but which are essential to the development of the country's resources.

"Third.—A tariff sufficient to keep operation and ready in operation, and put in operation such new industries as will tend to develop the material basis of the country, and create a balance of trade in our favor."

After reading them, the Secretary said: That embodies my ideas exactly. Those principles which are embodied in the Republican party, I have already expressed my opinion upon the question of internal improvements. Regarding the currency I am in favor of a gold and silver basis, and think it would have been far better for the interests of the country if silver had never been discovered, and if regard the act of its demonization as one of ill-judged legislation, to say the least. The power of the Government to coin money is sufficient to furnish a stable and unvarying currency.

There can be no controversy about that. Our currency ought to be National—a legal tender on customers and all other dues, and resting upon a metallic basis. I am opposed to any further contraction. I want to see specie payments brought about, but not at the expense of the material basis of the country. The present contraction of the currency is a mistake. A new Whig party would command a strong following in Indiana; but the Republican party, inspired by Whig principles, would be a stronger one.

PRESIDENT'S POLICY.

Editor.—In regard to the President's policy, what do you think would have been the result had he recognized Chamberlain and Packard as the result of a metallic basis of the currency? The Secretary.—I can scarcely conceive the result of such a course, but think it would have resulted in long confusion, a military Government, and perhaps in the end anarchy. In regard to the President's Southern policy, I do not think he could have pursued any other course consistent with his own principles and dignity of character. I think his policy is right in itself. The removal of the troops in the South is a mistake.

Editor.—With reference to Mr. Blaine and the so-called opponents of the Administration, do you not think that the smoke is caused mainly by an opposition press trying to create a difficulty between them and the President?

The Secretary.—I do not think there will be any real opposition inside of the Republican party to the policy of the Administration. The present excitement is created entirely by the efforts of the newspapers, and will end in nothing. As for Mr. Blaine's letter, there is nothing in it to justify the inference that he wishes to oppose the Administration. I might have written that letter myself, yet no one would accuse me of opposing the policy of the President.

"ALL NONSENSE."

As for the report of a gathering at Senator Cameron's to discuss an opposition to Mr. Hayes' policy that all nonsense, for I came out with President Grant from Pittsburg to Harrisburg, and am convinced he had no political objects in view, but was simply a man of honor.

In conclusion, the Secretary said that his opinions were not those of a politician. He had been twenty years separated from the arena of strong political influence. His time had been fully occupied with private business, and his only interest in political matters had been to keep himself up-

VOICE FROM THE TOMB.

CHARACTERISTIC LETTER FROM EX-SENATOR WADE.

BITTER CRITICISM OF THE PRESIDENT'S SOUTHERN POLICY.

NEW YORK, April 22.—The Times furnishes the following letter, written by ex-Senator Benjamin F. Wade, of Ohio, in condemnation of President Hayes' Southern policy, and which is now published for the first time:

"JEFFERSON, O., April 9. "MY DEAR SIR—Your letter of the 5th was duly received. You ask whether I remember what I said in favor of President Hayes in my endeavor to procure his nomination at the Cincinnati Convention. I do remember it, after what has since transpired, with indignation, and a bitterness of soul that I never felt before. You know with what untiring zeal I labored for the emancipation of the slaves of the South, and to procure justice for them before and during the time I was in Congress, and I supposed Governor Hayes was in full accord with me on this subject. BUT I HAVE BEEN DECEIVED, BETRAYED AND EVEN HUMILIATED by the course he has taken, to a degree that I have not language to express. During the first month of his administration we find him closeted with two of the worst and most malignant enemies of the colored race that can be found in all that slave cursed region, and that are consulting with those malefactors how best he can put these colored people under the iron heel of their most bitter enemies, and reduce them to a condition infinitely worse than before they were made free. I feel that to have emancipated these people, and then to leave them unprotected, to be a crime as infamous as to have reduced them to slavery, when they were free; and for Hayes to do this to men who had, at the hazard of their lives, given him the votes without which he never could have had the power to do this terrible injustice! No doubt he meditates the destruction of the party that elected him. A contemplation of all this fills me with amazement and indescribable indignation. My only consolation is, that history informs me that better men than I ever pretended to be, have been deceived. Some have attempted to excuse him by saying that he means well, but HELL IS PAVED WITH JUST SUCH GOOD INTENTIONS. Truly yours,

"B. F. WADE."

EASTERN CRISIS.

THE CZAR AT KISCHENEFF. LONDON, April 22.—The Emperor of Russia arrived at Kischeff yesterday.

ROWING RACE IN THE SPOHRITS. NEW YORK, April 22.—At Constantinople, April 12, an interesting race was rowed between one of the Gettysburg's service cutters and a creek boat belonging to the English gubboat Cockatrice. The course was two miles up the Bosporus and return. The Americans won by a third of a mile. The English crew were the challengers.

RUSSIAN TROOPS IN ROMANIA. BUCHAREST, April 22.—The movement of the Roumanian troops toward Kalafat has been suspended. Roumania will very possibly relinquish the idea of forcibly opposing the occupation of Kalafat, if the Turks request permission to occupy it after the Russians enter Roumania. The panic in Bucharest continues, although the report that Abbel Keim intends to push on thither, is contradicted by the news that the boys have here the first of the week for Piqua, Ohio, where they stay a week or so to inaugurate the movement there. URBANA. Special Telegram to the Commercial. URBANA, April 22.—The temperance movement is still sweeping like an avalanche everything before it. The work opened today with a meeting in the Presbyterian Church. There was an afternoon meeting in the Methodist Church, and a mass meeting in the evening at the City Hall, and an overflowing meeting in Presbyterian Church. Long before the hour of meeting the numbers of those present were many turned away. Mrs. Mary Reese spoke at both meetings. A new feature was the signing of names of numbers of Irish doctors. Many men who first signed by being bantered, are
